### 1989 MERCEDES-BENZ 420SL

This 1989 'G' registered Mercedes 420SL is one of the last examples supplied new to the UK market.

With the 420SL model being one of the rarest R107's in terms of production numbers this vehicle in this colour combination is a very attractive and desirable car.

Finished in Almandine Red Metallic over Cream Leather with a matching Almandine Metallic hardtop and brand new Black fabric soft top.

This 420SL is extremely well specified with cruise control, heated front seats, outside temperature gauge, drivers air bag, vanity mirrors, headlight wash/wipes and original Blaupunkt Casablanca stereo.

Supplied new in late 1989 to Mercedes-Benz dealership Majestic Garage in Bournemouth the vehicle boasts a very comprehensive service history and comes with a well stamped maintenance service booklet, original handbooks and a large history folder showcasing MoT certificates back to the first MoT in September 1992, within the history file there are many invoices proving testament to how well the vehicle has been maintained by its previous owners.

Displaying 57,464 miles from new and available through John Haynes after being with its last owner for over 20 years the vehicle has benefitted from significant recent works all of which is fully documented in the history file and would satisfy any enthusiast and perspective purchaser seeking one of the very best R107's available in todays UK market.
