MERCEDES-BENZ 300SL

This 1989 'G' registered Mercedes 300SL presents in flawless condition throughout.

During 2020 the vehicle was put through our classic department, significant expenditure rarely seen to R107 models was carried out to the very highest standards, all works were completed in Spring 2021 and both mechanically and cosmetically this work has been fully captured and catalogued in the history file of this 300SL.

The vehicle is finished in Diamond Blue Metallic over Blue Leather with a matching Diamond Blue Metallic hardtop and brand new Blue fabric soft top.

An extremely well specified example with air-conditioning, cruise control, heated front seats, outside temperature gauge, vanity mirrors, headlight wash/wipes and original Blaupunkt Casablanca stereo.

Supplied new in April 1989 to its first owner through Mercedes-Benz Normands of Mayfair the vehicle boasts a most comprehensive service history and comes with a full main dealer and independent specialist stamped maintenance service booklet up until 2017 when John Haynes started to take over the routine servicing and maintenance of the vehicle for its last owner, all the original handbooks are present and the history folder contains every MoT certificate the vehicle has had carried out, naturally all recent works by John Haynes are displayed via invoices and photo albums which brings the history of this example right up to date and dovetails its condition perfectly.

Displaying a 'sweet spot mileage' for R107 enthusiasts of 48,242 miles from new and on offer through John Haynes after benefiting from this level of workmanship throughout, this could arguably be the finest R107 available in the U.K. today, it can certainly match up against the condition of any ultra-low mileage vehicle which are often seen at premium and unusable investment only prices.

This 300SL is ready to go and be enjoyed, it's perfect to suit any purchaser who quite simply seeks the best of breed.
